Steve

Dear friend,

This is to inform you QSL from 5.2.84 at 1210 GMT on channel 31 Low by 26 865 Mhz . Please excuse me for a lot of errors, but I'm very happy to have communications with You and your country.

My speciality is only listen DX Radio , I have a good receiving station. Transceiving in the Citizen Band in Switzerland is limited by a power of 0.5 Watt AM/SSB and 4 Watt FM in a range from 26 965 MHZ to 27 405 MHZ. In this situation , you understand , that we cannot give coordinates by radio set !

For transceiving , my work condition is : President Grant 10 W AM/FM 21 W SSB with antenna ground plane 5/8 high gain penetrator. The QTH is 1100 m o. s. in the mountains , very good place indeed.

I'm married , 45 years old , two girls 6 + 13 years , my profession is teacher in military historic.

Dear friend , thanks in advance for QSL card, all the best for you and your family , 73 , I hope to catch you again on this frequency.

Yours sincerely

Anthony A. Neeracher

Dear Steve;

Thank you very much for your lovely QSL card post-card and the wonderful sticker of D.D. Club! I am very happy to receive your post to-day at 6.30 pm when I came back from work. First of all, must apologise for not receiving your personal on freq. but have to write six-one-four on the envelope, hope it did not caused any inconvenience to you.

Well, my family name is chua, all my friends in U.K. called me just chua, it's all right for me. You can call me Chua, too! I was so happy when you answered back to me on freq. that night, I was also shocked that with my little 1/4 x antenna and yet I can transmit into U.K.!! Also receiving your post, is the best!

So nice of you to send me the post-card showing your town - Newbury, it's beautiful, do you know that, we missed England so much? We will come back to England for a tour if time permitted us. We knew a bank manager of midland bank in London, he's live in Berks, too!

Very kind of the chairman of D.D. Club wishes to make me an honorary member of your DX club, please say a big thank you very much to Norman on my behalf please. I really appreciated!!! I'll let you know if I received details from Norman. Our best regards to Norman.

Thank you for letting us know about yourself, you've been too nice to us! We wish you + your father + brother best of luck in the business.

Last but not least, best regards to yourself + happy DXing, let to hear from you soon on channel. Bye Bye Steve.

Yours
CHUA

Dear Steve,

I thank you very much for your letter dated 26-5-84 and I received it on 2-6-84. Many thanks for the beautiful leaflet and the coaster you sent to us, very interesting leaflet! Thank you very much Steve.

Apologise for not replying earlier. I was very happy when I received your letter you know. We are all keeping fine this end thank you and I hope you + your family are also keeping well in England.

By the way, my good friend Tony (GMT) wrote + told me he received your card and he'll reply you very soon, I guess you must have received his already. We have many heavy rain falls in May/June, caused a lots of flood!

Regarding Norman - DD001, I have not received any thing from him yet, perhaps later? If you meet him, please send regards to him on our behalf.

You are lucky to have that best antenna on your roof top but not me. Mine only a tiny 1/4 λ sitting on the roof top and it looks funny to my neighbours, but I told them it's only a better radio station antenna (not C.B. that's for sure)

For me, I've worked U.K., Italy (no QSL returned!), Netherland, Austria, France, Asia side, such as Japan, Hong Kong, Philippines, Indonesia, Australia, New Caledonia, Re-union Island, U.A.E etc. We can receive Australia every day, just like you receiving Italy! For Indonesians, they are on air 24 hrs, talking their language!! Causing most interferences from A.M.!

I've just sat for my ham Exam in April 1984. Result will come in in August. Morse test will be held in Nov. Hope I can pass them.
